Contents

Abstract of Keynote Address		
Sl No	**Author**	**Title**
1	Prof. Dibakar Chandra Deka	Science for Sustainable Development
2	Prof. (Emeritus) William Jones	Disappearing polymorphs
Abstract of Invited Lectures		
Sl No	**Author**	**Title**
IL-1	Dilip Goenka	Science for Sustainable Development - Industrial Prospective
IL-2	Dr Rupam Jyoti Sarma	Tuning the Molecular Spaces of an Organic Solid using Mechanical Stimuli: Effect of Solvent Inclusion on the Solid State Emissions of an Organic Luminogen
IL-3	Dr. Shantanu Dutta	Miyawaki Plantation as a Scientific Tool for Creation of an Environmental Protection Forest
IL-4	Dr. Dhruba Jyoti Kalita	Advancing Renewable Energy: Organic and Perovskite Solar Cells
IL-5	Dr. Monali Dutta Saikia	Design of Biomass based Bioadsorbents for Separation of Biomolecules/Metal ions
IL-6	Dr. Manoj Barthakur	Degradation of Aromatic Hydrocarbon: Naphthalene through a Native Bacterial strain Bacillus cereus Isolated from Refinery Oil Sludge
IL-7	Dr. Sonit Kumar Gogoi	Sustainability and Nanomaterials
IL-8	Dr. Ankur Kanti Guha	Journey to the Planar Hypercoordinate World
IL-9	Dr. Bipul Sarma	Drug Polymorphism Control at Heteronuclear Interfaces
IL-10	Dr. Tridib Goswami	Light-driven Anticancer Activities of Transition Metal Compounds
IL-11	Dr. Saroj Bhattacharjee	Non-Ambient X-Ray Diffraction (NA-XRD) Analysis for Deeper Understanding of Material Properties
IL-12	Dr. Debajit Sarma	Coordination-Based Framework Materials for Induced and Intrinsic Heterogeneous Catalysis
IL-13	Dr. Suranjana V. Mayani	Advancement of Eco-Friendly Strontium Ferrite Graphene Nanocomposite for Enhanced Catalytic and Antimicrobial Applications
Abstract of Short Invited Lectures		
Sl No	**Author**	**Title**
SIL-1	Dr. Jiban Saikia	Biofertilizers: Can it be a sustainable solution to future agriculture?
SIL-2	Dr. Dhrubajit Borah	Catalytic acceptor less dehydrogenation strategy- a green alternative to traditional oxidation methods
SIL-3	Dr. Hemanta Kalita	Core Modified Corrole as Fluorescent Probe and Building Blocks for BODIPY Bridged Dye
SIL-4	Dr. Jyotirmoy Sarma	Synthesis of valuable materials from agriculiutural wastes and specific ion effect study
SIL-5	Dr. Hemanta Deka	Organoactinide Complexes in Catalytic Transformation
SIL-6	Dr. Saitanya Kr Bharadwaj	Solvent mediated alteration of coordination number of two cobalt

		complexes and its antibacterial activity
SIL-7	Dr. Pankaj Kalita	Pentagonal Bipyramidal Dysprosium(III) single-ion Magnets
SIL-8	Dr. Gaurango Chakrabarty	Modelling Glutathione Peroxidase (GPx): Evidence of a Selenenyl-amide Intermediate in the Catalytic Cycle of a Synthetic Mimic
SIL-9	Dr. Amar Deep Soren	Traditional medicines as source of anthelmintic drugs
SIL-10	Dr. Apurba Kalita	Electrocatalytic water oxidation activity by copper (II) complexes with oxime ligand moiety
SIL-11	Dr. Papia Dutta	Nanotechnology in Sustainable Development
SIL-12	Dr. Anupal Gogoi	A Metal Free Route for the Synthesis of Diphenylquinolines
SIL-13	Dr. Abhilash Sharma	Palladium-Catalyzed Tandem Process for the Synthesis of Spirooxindoles
SIL-14	Dr. Rajan Kumar	Application Demonstration of Degradable Functional Polymers
SIL-15	Dr. Sourav Kalita	Anthranilic Acid-Induced Point Mutation in $hIAPP_{8-37}$ Boosts Anti-Amyloidogenic Efficacy of human Amylin
SIL-16	Dr. Dipjyoti Kalita	Aromatic Azo Compounds: Prospects in Metal and Anion Detection
SIL-17	Dr. Biva Talukdar	Recent Development in H_2 Storage as Liquid Organic H_2 Carrier
SIL-18	Dr. Sujan Kalita	Design of Macrocyclic Peptide as a Potent Agent for Chelation of Metal Ions and Inhibition of Aβ Fibrillogenesis
SIL-19	Dr. Bidyut Bikash Sarma	Title: Single Atom Catalyst: How Sustainable are they?
SIL-20	Dr. Surajit Kalita	Assessing the Potential of Static and Oscillating Electric Fields for Treating Alzheimer's Disease
SIL-21	Dr. Pradyumna Mazumdar	Study of hydrogen bonding in tiny nucleobases utilizing DFT, AIM, NCI, and NBO techniques

Abstract of Oral Presentation

Sl No	**Author**	**Title**
OP-1	Dr. Rakesh Mazumdar	In Pursuit of Metal Peroxynitrites for A Better Understanding of the Nitric Oxide Dioxygenase Activity
OP-2	Dr. Parishmita Sarma	Molecular Insights Into Signaling-Bias And Transducer-Coupling at SevenTransmembrane Receptors
OP-3	Dr. Hemanta Hazarika	Pd(0) Catalyzed Aryne and Alkyne Annulation Reaction for the Synthesis of Π-Extended Coumarins
OP-4	Dr. Annesha Kar	Poly(Ester Amide Urethane) Nanocomposites With Biochar and Bentonite Clay For Environmental Remediation
OP-5	Dream Kumar Das	Gradual Disappearence of Equimolar Mixture of Anthracene, Fluoranthene and Phenanthrene in Soil in Presence of Oxidative and Nutritive Additives
OP-6	Swati Basak	Electrocatalytic Water Oxidation by Dinuclear Copper (II) Complex
OP-7	Dr. Shibani Kalita	Comparative study of the Antibacterial Activity in Bacteria-Immunized Muga Silkworm with Commercial Antibiotics
OP-8	Dhirunabh Swargiary	Antimicrobial property of *Trichoderma virens* MBDM1 an Endophytic Fungi isolated from *Houttuynia cordata* Thunb
OP-9	Aditya Yubraj Barua	Study on The Proximate Composition and Mineral Analysis of Freshwater Crab, *Sartoriana Trilobata* Found In Assam
OP-10	Vargav Medhi	Study of Avian Fauna in B. Borooah College Campus
OP-11	Nishant Kumar Rai	A Preliminary Investigation On Trypsin as A Potential Degumming

		Agent For Eri And Muga Cocoons
OP-12	Dr. Dipsikha Kalita	Analysis of Extensive Air Showers using CORSIKA-6990 code
OP-13	Dr. Trishna Rani Borah	Ecotourism and Environmental Sustainability: A Study of the Impact of Tourism Sector in Majuli, Assam
OP-14	Dr. Smritimala Sarmah	Fabrication and Characterization of Variable Focus Liquid Lens
OP-15	Dr. Satyabrata Baruah	Empowering Future Generations: The Role of Education in Achieving Sustainable Development Goals (SDGs)
OP-16	Dr. Nandini Roy	Photodegradation of Dye Using Ag Doped Zno Nanostructure
OP-17	Sahil Zaman Seikh	A Study On Fish Diversity and Water Quality of Beki River, Barpeta, Assam
OP-18	Dr. Prapty Das	Banana Peel Waste as A Natural Antimicrobial Agent
OP-19	Dr. Anjana Bhattacharya	A Time Series Modelling of Annual Rainfall in Assam and Meghalaya
OP-20	Diptajyoti Gogoi	Mechanochemical Synthesis of Polymorphic Urea•Adipic Acid Cocrystal As a Sustained Release Nitrogen Source
OP-21	Rahul Ahmed	Room Temperature Luminescent Liquid Crystals with Aggregation-Induced Emission (AIE) Based on Indolo [2,3-*b*]quinoxaline: Synthesis, Properties, and Bioimaging Applications
OP-22	Pranjal Das	Effect of Ligand Frameworks on Electrocatalytic Water Oxidation Activity of Cu(II) Complexes
OP-23	Dabasish Deka	Cyano-Bridged Discrete Heterometallic Co(II)-W(V) Aggregates: Structural, Electrochemical and Magnetic Analysis
OP-24	Nabadeep Kalita	Crystal Engineering-based Approach to Introduce Mechanical Compliance in a Series of Highly Luminescent Substituted Distyrylbenzenes
OP-25	Manisha Das	Investigating Non-Covalent Interactions Between Pyrrole and Benzene Rings: A DFT Study
OP-26	Gitashree Choudhury	Aqueous Extract of *Dillenia Indica* Fruit (AEDI): An Environmentally Benign Bio-based Catalyst for the Synthesis of Pharmacologically Potent Bis(Indolyl)Methanes
OP-27	Nabajit Barman	Green Reduction of Borophene Oxide For The Detection Of Imidacloprid Pesticide In Real Samples
OP-28	Dr. Joyjit Hazarika	Sustainable Development Goals: An Understanding of Rural Assam
OP-29	Pratiksha Rajadhyaksha	Green Solvents: A Step Towards Sustainability
OP-30	Kumari Alakapanti	A Study on Parasitic Infestations in Channa Punctatus (Bloch, 1793) Collected from Narengi and Bhangagarh Fish Markets of Guwahati, Assam
OP-31	Dr. Ashim Baishya	Conjugated Bis-Guanidines (CBGs) as β-Diketimine Analogues
OP-32	Dr. Kashyap Kumar Sarmah	Mechanochemical Synthesis of Eutectics of Anti-Inflammatory Drug Ethenzamide: A Comparison with Analogous Cocrystals

Abstract of Poster Presentations

Sl No	**Author**	**Title**
PP-1	Jahnabi Deka	Efficient Elimination of Congo Red and Methylene Blue Using Biosorbents Derived from Flowering Plants. A Sustainable Approach
PP-2	Somik Banerjee	Real-Time Detection of Environmentally Hazardous Chloride (Cl^-), Sulphate (SO_4^{2-}) and Phosphate (PO_4^{3-}) ions employing Polyaniline

		(PAni) Nanofiber based Inter-Digitated Chemiresistors
PP-3	Nishanta Choudhury	An ANN-based Model for Rain Prediction from ST Radar
PP-4	Jyoti Prasad Biswas	Overcoming Linker Length Dependence in Rh-Catalyzed *meta*-C-H Functionalization
PP-5	Ambarish Dev Goswami	Comparison of Oxidizing Ability of Potassium Ferrate and Fenton's Reagent On Disappearance Time of Fluoranthene in Natural Water
PP-6	Meetali Borah	Modification of Soil Quality due to GMC Garbage Dumping Site at Boragaon, Guwahati, Assam
PP-7	Angarag Kashyap	Comparative DFT Study of Antioxidant Properties in Antifolate Molecules and Folic Acid: Insights for Drug Design
PP-8	Baisali Hazarika	Electrocatalytic Water Oxidation by Ternary Cu(II) Complexes having Redox Active Amino Acids and 2,2$^{/}$-Bipyridine as Ligand Moiety
PP-9	Kripangkar Choudhury	DFT Insights into Drug Binding on Carbonaceous Surfaces for Enhanced Drug Delivery
PP-10	Dona Deb	Enhanced Antimicrobial and Antioxidant Efficacy of Curcumin Loaded Keratin/Sericin Blend Hydrogel
PP-11	Nikhil Bharali	In Silico Design of Binding Agents For Polyfluorooctanoic Acid
PP-12	Jugashri Thakuria	Isolation of Endophytic fungi from *Homalomena Aromatica* (Spreng.) Schott: An Ethnomedicinal Plant and qualitative Screening of phytochemicals
PP-13	Ankur Nath	Synthesis and structural characterization of copper(II) complexes with bis-imidazolyl methane based ligand
PP-14	Nripankar Kalita	Synergistic Drug Delivery: Exploring 5-Membered Heterocyclic Compounds with Fullerene Nanocarrier using DFT Analysis
